## Summary

---

With over 1 year of experience in UI/UX design and advanced expertise in Flutter, I am able to design and develop an academic system application for Ahmad Dahlan University, which has more than 29,000 active students. I possess strong skills in creating UI/UX designs, and with my IT background, I can assess whether the designs I create can be executed through the development phase or not.

## Experience

---

### Biro Sistem Informasi Ahmad Dahlan University | Yogyakarta

#### UI/UX Designer | 06/2023 - 12/2023

- Engaged in meetings and discussions with stakeholders to translate project requirements, scope, and objectives.
- Conducted discussions and gathered data with potential end-users (students, lecturers, staff).
- Initiated the iterative design process, starting from site maps, sketches, wireframes, wireflows, high-fidelity, to prototypes.
- Held follow-up meetings with stakeholders to present and finalize the design outcomes (having undergone iterative improvements).
- Conducted testing phases with potential end-users.
- Entered the development stage using Flutter to realize the agreed-upon design into a functional application.
- Engaged in discussions and collaboration with Ahmad Dahlan University development teams to present and receive feedback on the developed application.

### Freelance | Yogyakarta

#### UI/UX Designer | 10/2022 - 12/2023

- Redesign the Ahmad Dahlan University Information System Bureau website.
- Redesign the event website for the Indonesia University of Education.
- Design the UI/UX for the Decision Support System dashboard.
- Redesign the website for Ahmad Dahlan University.
- Design the UI/UX for the employee application of Muhammadiyah University Yogyakarta, including the slicing process using Flutter.
- Design the UI/UX for the Student Activity Unit website.
- Flutter slicing for the transportation service provider application design.
- Design the UI/UX and slicing for the academic system application of Ahmad Dahlan University, comprising three applications for Students, Lecturers, and Academic Staff.

### Grow with Google on Coursera

#### UX Design | 06/2023 - 08/2023

- Undergoing UX design scenarios in the workplace
